BACKGROUND

The 29th International Conference on System Theory, Control and Computing ICSTCC 2025 aims to provide a unique, multidisciplinary forum, for scientists of academia and industry to discuss the state of the art and the new trends in system theory, control and computer engineering, and to present recent research results and prospects for development in this rapidly evolving area.

ICSTCC 2025 conference joins four previous scientific meetings hosted by University of Craiova (SINTES - International Conference on System Theory and Control), "Gheorghe Asachi" Technical University of Iași (SACCS - International Symposium on Automatic Control and Computer Science), "Dunărea de Jos" University of Galați, (SIMSIS - International Symposium on Modelling, Simulation and Identification Systems), and Politehnica University of Timișoara (CONTI – International Conference on Technical Informatics).

As well as the previous editions, ICSTCC 2025 will be technically co-sponsored by **IEEE Control Systems Society** and the Proceedings will be submitted to **IEEE Xplore Digital Library**. Moreover, the Proceedings of the 2013 to 2022 editions are indexed in **Clarivate Analytics Web of Science**.

ICSTCC 2025 will feature several kinds of presentations including invited talks, contributed papers, special sessions and contributions from industry. The outcome of ICSTCC 2025 is hoped to be an inclusive event, a comprehensive view and a better understanding of such leading research areas: automation, control systems, robotics, computers, electronics and electrical engineering.

IMPORTANT DEADLINES

- **April 25, 2025:** Submission of proposals for invited sessions
- **April 30, 2025:** Submission of papers
- **June 30, 2025:** Notification of acceptance
- **July 28, 2025:** Final camera-ready manuscript and registration payment of at least one of the authors
- **October 9-11, 2025:** Conference.

TOPICS

The conference topics include (but are not limited to):

Adaptive and robust control	Kalman filtering
Aerospace systems	Large-scale systems
Agents-based systems	Linear parameter-varying systems
Algebraic/geometric methods	Linear systems
Automata/Discrete-event systems	LMIs
Automotive control	Lyapunov methods
Autonomous systems	Machine learning/Reinforcement learning
Biological/biomedical/biomolecular systems	Manufacturing systems and automation
Boolean control networks and logic networks	Markov processes
Chemical process control	Mean field games
Cloud computing	Mechatronics
Communication networks	Model/Controller reduction
Compartmental and Positive systems	Network analysis and control
Computational methods	Neural networks
Computer vision	Nonholonomic systems
Constrained control	Nonlinear output feedback
Control applications	Nonlinear systems identification
Control over communications	Numerical algorithms
Cooperative control	Observers
Cyber security	Optimal control and optimization
Data-driven control	Petri nets
Decentralized/distributed control	PID control
Delay systems	Power electronics/generation
Differential-algebraic systems	Predictive control
Distributed systems	Process Control
Embedded systems	Quantized systems
Energy/Power systems	Quantum information and control
Engineering education	Randomized algorithms
Estimation/Filtering	Robotics
Evolutionary electronics	Sampled-data control
Extremum seeking	Sensor networks
Fault detection/identification	Signal processing
Fault tolerant systems	Smart cities/houses/grids
Feedback linearization	Software methods and tools
Fuzzy systems/logic	Stability of linear systems
Game theory	Stability of nonlinear/hybrid systems
Hierarchical/supervisory control	Statistical learning
Human-Computer Interaction	Stochastic systems
Hybrid/Switched systems	Subspace methods
Identification	Traffic control
Information theory and control	Uncertain systems
Instrumentation	Variable-structure/sliding-mode control
Intelligent systems	Variational methods.
Iterative learning control	

Technically co-sponsored by IEEE Control Systems Society

KEYNOTE SPEAKERS (confirmed)

- Sophie TARBOURIECH (FR)
- Hyungbo SHIM (KOR)
- Răzvan PASCANU (UK)

PAPER SUBMISSION

Full papers should be submitted using the PaperCept Conference Management System, by web upload:

<http://controls.papercept.net/conferences/scripts/start.pl>.

All materials must be written in English. Submitted papers will undergo a peer review process, coordinated by the International Program Committee.

Papers submitted for presentation should contain original research, not published or being considered for publication elsewhere. All submissions will be tested for similarity and overlap with prior published material using the iThenticate tool. The results will be made available to the IPC for evaluation. Possible violations of the IEEE ethics rules in publishing will be investigated by a dedicated committee.

The corresponding author of each paper will be notified of the result by e-mail. The accepted papers will be published in the conference proceedings, provided that at least one of the authors attended the conference and presented the paper. As part of the submission procedures, authors of accepted papers must send a signed Copyright Form for each paper. In the absence of such a form, the paper cannot be published.

The final form of the papers must meet IEEE pdf compliance requirements. Maximum six pages A4 in double column format are allowed. Authors may upload longer manuscripts up to a maximum of eight pages. However, each page in excess of six will incur a charge of 50 EUR.

INVITED SESSIONS

Proposals for Invited Sessions on the conference topics are welcome. People interested in organizing an invited session should submit their proposal by April 25, 2025, through:

<https://controls.papercept.net/conferences/scripts/start.pl>.

The proposal should include the title of the session, a half-page description of its topic, together with a list of at least six papers (authors and tentative titles) that will be submitted to the session. The proposal evaluation will be communicated to the proponents within one week from submission. Invited sessions will be open:

authors of papers whose topic matches the topic of an invited session may choose to submit the paper as part of the invited session (instead of as a regular paper) at the time of submission. Papers submitted for the invited session will be reviewed in the same manner as the regular papers.

CONFERENCE FEES

- Early registration (before July 28, 2025) fee: 450 EUR (400 EUR for IEEE Members);
- Late / on-site registration: 475 EUR (425 EUR for IEEE Members);
- Early student registration (by July 28, 2025): 275 EUR;
- Late / on-site student registration: 300 EUR;
- Accompanying person registration: 250 EUR;
- Late / on-site accompanying person: 275 EUR.

The registration fee covers attendance at all sessions, conference materials, coffee breaks, lunches on the days of the conference, welcome reception and gala dinner. It also includes an electronic copy of the conference proceedings. Regular registrants may upload up to two papers, however for the second paper a supplementary fee of 125 EUR must be paid. Student registrants are allowed to upload only one paper.

CONFERENCE VENUE

ICSTCC 2025 will be held in Cluj-Napoca, the main city in Transylvania. With its rich historical and cultural heritage, Cluj-Napoca is an intellectual center with an active society, renowned universities, museums, theatres and eye-catching architecture.

Cluj is an important academic, industrial and commercial center. It is a dynamic, multicultural and diverse city with a population of around 350.000 inhabitants more than and 100.000 students.

Due to its location (equal distance between two East-European capitals, Bucharest and Budapest, Cluj-Napoca is easy to reach by different means of transport: plane, car, bus or train.
